**SO BEAUTIFUL
IT MUST BE REAL**

Whether indoors or outside, we have the right products to meet your needs. We install synthetic grass for lawns, playgrounds, sports fields, golf putting greens and just about anywhere else that you may require it.

**SEE THE
DIFFERENCE**

DESIGNED TO PERFORM

Rymar Synthetic Grass offers the rich look of real grass with our environmentally-friendly synthetic grass and turf products. Designed for the ever-changing Canadian climate, the use of breakthrough materials and processes in manufacturing ensures they will look and feel just as realistic and beautiful for years.

- Easy installation
- No mowing
- No watering
- No fertilizing
- Great for pets

DISTRIBUTION MADE EASY

Rymar synthetic grass and turf products are distributed from warehouses in Calgary, Alberta and Toronto, Ontario making our products easily accessible to landscapers, installers and homeowners across Canada.

With over 25 years combined experience in sales, service, and installation, Rymar is poised to offer the best synthetic grass, turf products and technical know-how at a very competitive price.

**OUR LINE OF SYNTHETIC GRASS AND
TURF IS 100% LEAD FREE AND DESIGNED
TO STAY GREEN FOR A LIFETIME**

**FRESH AND GREEN
ALL YEAR ROUND**

COMMERCIAL AND RESIDENTIAL LANDSCAPE

The level of maintenance of a yard can make all the difference when it comes to how it looks and how clean it is. The fact is that maintaining a lawn takes a significant amount of time and effort. With our synthetic lawns be assured that the maintenance required is far less than with a conventional yard and is much safer.

Our synthetic grass will always have the fresh cut look . . . even in the winter. It is the ultimate way to enjoy a great looking yard without the regular maintenance. This grass requires no water, chemicals, fertilizers or insecticides and is great for pets. Furthermore, our synthetic products are anti-microbial so there is never a worry about harmful bacteria building up or allergic reactions caused by the grass.

- Heat and frost resistant, UV stabilized
- No harmful environmental effects
- Non-flammable, anti-acid yarn resistant to chemical attacks
- Great for landscaping applications, playgrounds and dog run areas

ALL OF OUR SYNTHETIC GRASSES AND TURFS ARE MADE OF NON TOXIC AND LONG LASTING MATERIALS

ENDLESS HOURS OF PRACTISE

CUSTOM PUTTING GREENS

What better way is there to practise putting or entertaining guests than having a personal putting green? Help your clients take strokes off their short game by creating a practice area in their backyard, office or basement.

Rymar has the perfect solution to any sized putting green with our premium selection of golf products. Our putting greens react to putts and chips like natural grass greens. Rymar putting greens are the ideal choice for golf courses, and for commercial and residential applications of all sizes. We have a wide array of choices when it comes to synthetic grass for putting greens. Our professional sales and installation team will customize the products for any outdoor and indoor greens.

WE PROVIDE

- Outdoor Backyard Greens
- Indoor and Portable Greens
- Full Commercial Greens
- Driving Ranges and Mini-Putt Courses
- Hitting Mats and Simulator Surfacing
- Sand Traps

**WE MANUFACTURE OUR PRODUCTS FROM THE
VERY BEST MATERIALS THAT STAND UP TO OUR
EVER-CHANGING CANADIAN CLIMATE**

INCREASE YOUR PLAYING TIME

SPORTS SOLUTIONS

INSTALLED OVER 6,000,000 SQUARE FEET OF
SPORTS TURF IN NORTH AMERICA**

**SAFE AND HEALTHY
FUN FOR CHILDREN**

PLAYGROUND SYSTEMS

Rymar offers three playground systems* dedicated to bringing the safest and best-fit products for your clients' play area needs.

- Rymar Rubber Mulch
- Rymar Playfall Tiles
- Rymar Playground Turf

All three of our playground systems meet or exceed US CPSC and IPEMA guidelines for playground surfacing. Rymar playground surfaces provide the optimum fall height up to 16'. In keeping with stringent ASTM requirements for playground fall safety, our products come in a variety of thickness and colours to match equipment and personal needs.

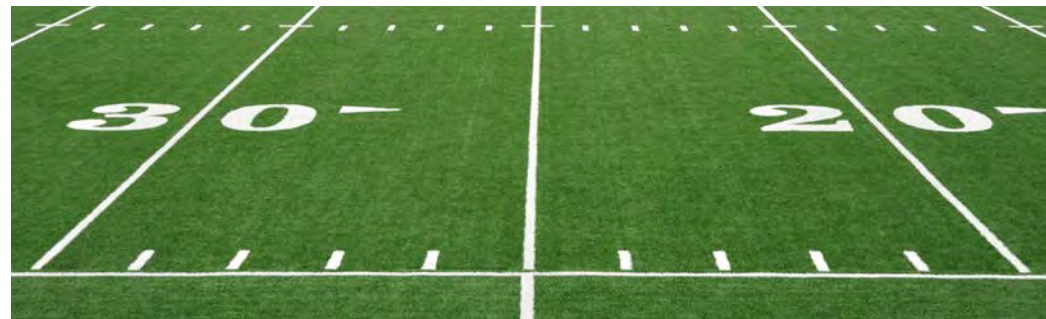

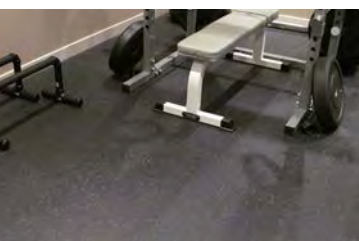

*See pages 24 and 25 for further details on these products.

PLAYGROUNDS WITH BUILT-IN SAFETY RYMAR THREE-STEP SYSTEM

- 1. SOFPAD** // Shock and drainage pad provides shock absorption and impact protection from falls.
- 2. SOFGRASS** // A unique blend of polyethylene monofilament fibers and nylon thatch layers that simulates a fine blade of fescue or blue grass.
- 3. SOFFILL** // This infill is a completely anti-microbial product that creates a long lasting healthy environment for a child's play.

**OUR PLAYGROUND SYSTEMS ARE
SOFTEST AVAILABLE BY COMBINING
OUR THREE-STEP SYSTEM**

Ryamar 51

For use in light to moderate traffic areas. This great economy-priced turf is designed for our Canadian climate. Product requires infill. Specially formulated and industry-first polyurethane backing. Great for landscaping applications, playgrounds and dog run areas.

- Face Weight: 51 oz
- Backing: Polyurethane
- Colour: Olive Green
- Pile Height: 1.5"
- Golden Thatch Layer

Ryamar 81

For use in moderate to high traffic areas. This commercial grade product is designed for pool areas and where product is subject to road salts. Specially formulated and industry-first polyurethane backing. Great for landscaping applications and playgrounds.

- Face Weight: 81 oz
- Backing: Polyurethane
- Colour: Olive Green
- Pile Height: 2"
- Golden Thatch Layer

Ryamar Everblade

For use in moderate to high traffic areas. This premium turf gives all the strength expected in an 80 oz product but with extra softness and comfort. Specially designed to keep surface temperatures low. Great for landscaping applications and playgrounds.

- Face Weight: 80 oz
- Backing: Polyurethane
- Colour: Emerald / Lime Green
- Pile Height: 1.95"
- Golden Thatch Layer

Ryamar Pro Putt

For use in custom-designed putting greens. This premium turf is designed to give true ball roll and bounce reaction. Infill is required to control stint speed and ball bounce/roll. Specially designed for our Canadian climate. Lots of fun and great for training.

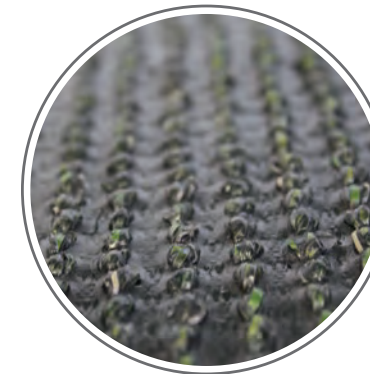

- Face Weight: 56 oz
- Backing: Latex
- Colour: Field Green / Lime Green
- Pile Height: 0.5"

Ryamar Pet Pro / Fringe

For use in moderate to high traffic areas. This commercial grade product is designed for longevity. Specially formulated to allow for high drainage rates. Great for landscaping applications, putting green fringe and dog run/agility training areas.

- Face Weight: 65 oz
- Backing: Urethane
- Colour: Field Green
- Pile Height: 1"
- Golden Thatch Layer

Polyurethane Coated Backing

Uniquely formulated polyurethane DOUBLE coated backing provides greater seam strength, durability and is not water soluble. This manufacturing process helps protect the turf from freeze and thaw expansion and contraction, one of the most important characteristics to synthetic turf design and longevity.

SofPad

- Available in 1" & 2" thickness
- Size 4' x 6' sheets
- IPEMA approved
- Enhanced impact adsorption
- Reduces need for substantial excavation
- Reduces need for expensive drain systems
- Reduces or eliminates aggregate (crushed stone)
- Rated up to 12' fall height

Sand Infill

- Dust elimination
- High level of flexibility
- Variety of grades available
- Uniformed particle size distribution
- Superior consistency

Bender Board

A great recycled product which, unlike lumber, will bend uniformly and consistently to create flowing curves and radii; it is very well suited to be used as landscape edging. These boards come in 20' lengths and have dado joints on the end allowing for longer butt free curves and longer more uniformed flowing curves.

These products are especially attractive to concrete finishers for detailing work and forming sidewalks and patios, commercial landscapers, residential landscapers and municipalities both for concrete forming and edging gardens that require landscape edging.

Urine-Off

Dog urine odour is unmistakable, strong, and extremely difficult to permanently remove. Like many other animals, dogs use urine and feces as a method of communication, indicating possessiveness and territoriality. Urine-Off is the #1 Veterinarian recommended product for dog urine odour and stain removal. In the past, dog urine odour and stains were nearly impossible to eliminate. Now, with Urine-Off Dog & Puppy Formula, you can permanently eliminate a dog's urine odour and stains from virtually any surface.

Rubber Crumb

Loose Crumb Rubber made from 100% recycled rubber provides safe, resilient and non-abrasive surfaces. It's perfect for playgrounds, sport surfaces or any area that requires the protection, durability and flexibility of crumb rubber.

Crumb rubber is ideal for running tracks, synthetic playing surfaces, playground surfaces, horse arena flooring, asphalt additive, asphalt crack sealants, paint non-slip additive, spec ground for OEM Manufacturing.

Putting Golf Pins

Covered with bonderite coating which is the most chip resistant coating available. Includes seven "feet" on the cup base that eliminates cups from sinking. With a brilliant white finish and solid aluminum construction, putting golf pins provide a real professional putting experience.

XGS Turf Adhesive

Distributed exclusively in Canada by Rymar Synthetic Grass. This ECO-friendly, single part polyurethane adhesive is designed specifically for bonding various substrates to the back of synthetic turf.

SUB STRAIGHTS INCLUDE:

- Road Base
- Decomposed Granite
- Concrete and Asphalt
- Wood and Foam Padding

EXTREME DURABILITY

ARMOUR RUBBER FLOORING

HIGH QUALITY FLOORING

Armour Rubber delivers high-quality flooring solutions to our customers. Made primarily from recycled rubber tires, Armour flooring thrives in tough, high-traffic environments. Available in both roll and interlocking tile, our SportFloor's unique beveled-edge construction means virtually no gapping, and a smooth, seamless surface. Endorsed by Gold's Gym for its durability and flexibility, we provide a long-lasting floor that will look great for years.

You will find Armour Rubber's products in airports, gyms, hotels and all kinds of commercial and industrial buildings worldwide.

To learn more about our products and our company, or to request a quote, please visit www.armourrubber.ca.

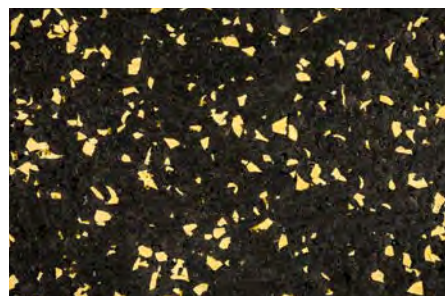

PRESERVING NATURAL RESOURCES THROUGH CREATIVE ENGINEERING

MADE FROM TIRES. MADE FOR TRAFFIC.

- Hygienic
- Easy to install and maintain
- Cost-effective and long-lasting
- Shock and sound absorbent
- Unique design makes for a seamless floor surface
- Excellent traction, even when wet
- Safe for indoor and outdoor use
- MAS Certified Green®
- Mold and mildew resistant
- Multiple colours, custom colours and logos available
- Premium Recycled Rubber
- 5-year, normal wear warranty

COLOURS

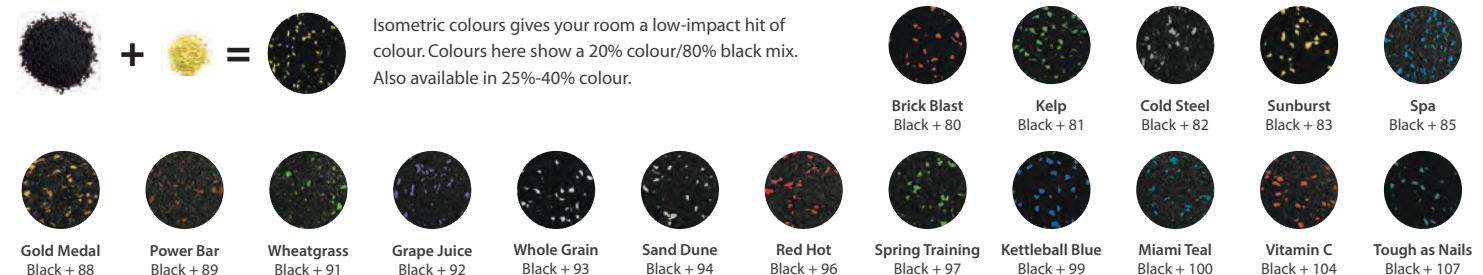

Standard or custom colours give you maximum flexibility

Armour SportFloor rolls and tiles come in many colour options. Choose from one of our three standard colour lines, or create your own colour blend with Colour Builder, our custom floor design tool. With low minimums and fast turnaround times, it's easy to create a unique look while keeping your project on time and on budget.

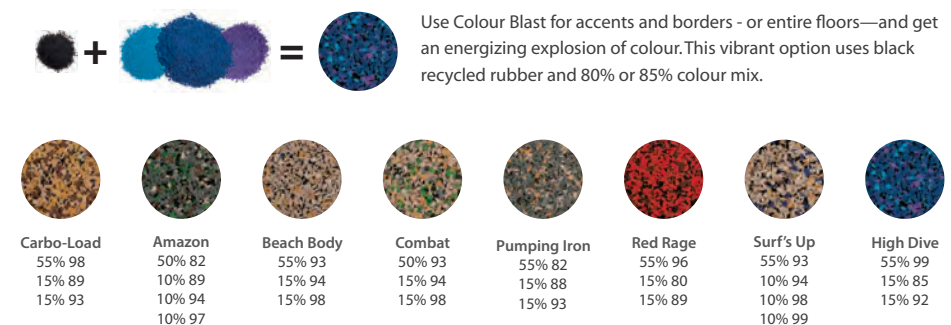

ISOMETRICS

Isometrics colours are a great choice for adding a low-intensity hit of colour to the fitness area. Samples shown here use 20% of the accent colour. Isometrics colours can also be made in 25%-95% colour blend. Call our sales team for assistance, or preview other colour blends by using our ColourBuilder colour mixing tool.

COLOUR BLAST

Our Colour Blast line is a colour-rich option blended with a small amount (5%) of black recycled rubber. Use it for accents and borders—or entire floors—and get an energizing blast of colour.

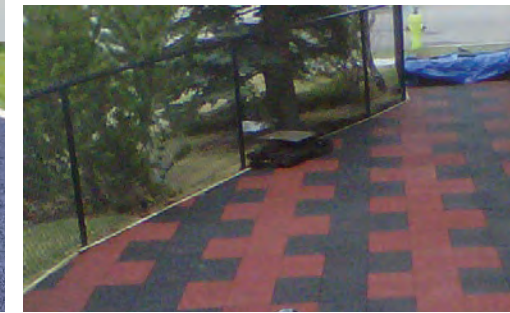

COMPLETELY CUSTOM COLOUR OPTIONS

Design your own fitness floor and set yourself apart from the competition. Blend colours to create seemingly endless colour combinations. Try out your ideas with our online custom colour mixing tool.

RYMAR RUBBER IS CANADA'S #1 SOURCE FOR TOP QUALITY RUBBER PRODUCTS AT GREAT PRICES. SHIPPING ACROSS CANADA.

OUR THREE PLAYGROUND SYSTEMS

1 // RYMAR RUBBER MULCH

Rymar rubber mulch is a loose fill, recycled rubber playground safety surface. When properly installed and maintained, Rymar rubber mulch provides a safe playground surface that meets or exceeds US product safety commission guidelines and ASTM standards for play surfaces.

WHY USE RYMAR RUBBER MULCH

- Save up to 57% over 5 years by reducing annual mulching costs
- Natural looking and colours remain vibrant
- Meets or exceeds US CPSC and IPEMA guidelines
- A 6" layer provide 16' of vertical fall height protection as per ASTM F129204
- Non-staining—the colour will not rub off on children's clothes or pets
- Polyurethane coating provides superior adhesion and abrasion resistance

MULCH PRODUCTS

Black Rubber Mulch

Brown Rubber Mulch

Redwood Rubber Mulch

Blue Rubber Mulch

Green Rubber Mulch

2 // RYMAR PLAYFALL TILES

Rymar Playfall Tiles provide the optimum fall safety for kids play environments. Install a Playfall surface and eliminate the need to fill in holes, remove animal waste and potentially dangerous hidden objects. Created from recycled rubber, diverting tonnes of waste from landfills, Rymar Playfall Tiles are durable, resilient and porous to allow drainage.

WHY USE RYMAR PLAYFALL TILES

- Installs equally well over a hard surface sub-base or a well compacted granular surface
- Easy to install with interlocking pin system for alignment
- Eliminates health and safety concerns from buried objects and animal waste
- Eliminates risks and maintenance associated with displacement from loose filled materials (i.e. wood-fibre)
- Combined with a foam pad, the Playfall Tiles provide 14' of vertical fall height protection

3 // RYMAR PLAYGROUND TURF

With Rymar Synthetic Playground Turf a hard abrasive surface is no longer a threat to a child's safety and it is a more sanitary alternative to sand and pea gravel. Our synthetic grass is made of a blend of polyethylene monofilament fibres which give the grass the soft comfortable feel. Also this grass is free from allergens and is anti-microbial. Rymar Synthetic Playground Turf is as safe as it is beautiful with almost no maintenance required.

WHY USE RYMAR PLAYGROUND TURF

- Eliminates the need to mow and trim underneath playground equipment
- Dries very quickly to allow children to play almost immediately after rain fall (consistent Gmax and HIC safety ratings)
- Is available to meet IPEMA ASTM F1292 requirements for up to a 12' critical fall height.

RYMAR DEALERS

RYMAR DEALERS

Rymar has trained and conveniently located dealers across Canada to allow for easy access to our products and more personalized service.

WHY USE RYMAR DEALERS

Rymar certified dealers are well-versed in our products and have direct contact with our experienced installers and product knowledge team. Our dealers have product in stock, ready for pickup or delivery direct to the job site. Rymar dealers have access to trained installers for complete installation if needed. Rymar dealers can also provide recommendations and pointers on design and installation.

NEW DEALERS WELCOMED
